[Ham donates Andy Warhol print to the ARRL](#)

"Myths: Superman 1981" — will be sold at auction and the proceeds used to create "The Dave Bell, W6AQ, Endowment Fund" to benefit the League.

[ARRL](#)

[Seen any hams on 'new media' lately?](#)

What I never hear is any mention of ham radio.

[amateurradio.com](#)

[HF mobile antenna installs](#)

The single biggest factor with respect to efficiency for any mobile is ground loss, so maximizing this half of the antenna system is essential.

[VE6AB](#)

[Amateur Radio becomes Primary on 1900-2000 kHz](#)

The FCC action with respect to 1900-2000 kHz reduces the possibility that we might suffer in the future from new radiolocation deployments.

[ARRL](#)

[Tracksoar: The open source APRS tracker](#)

It has a UBLOX MAX-M8Q GPS receiver for precise high speed location data, with a compact and lightweight chip antenna.

[A "clean sweep" of the 13 Colonies](#)

I guess a few years makes a difference. Back in 2012, as a complete ham radio newbie, I worked about 2-3 of these 13 Colonies stations.

[KK4DSD](#)

[Fldigi configuration backup generator](#)

Restoring your settings for a new or recovery installation is simple.

[Mac Ham Radio](#)

[Use SSB for better VHF range on SOTA peaks](#)

For serious VHF work, 75 miles is not that great of a distance but we were running QRP power levels with small yagi antennas.

[K0NR](#)

[Hacking computers: Using an SDR receiver and a piece of pita bread](#)

Security researchers at Tel Aviv University have demonstrated how to extract secret decryption keys from computers by capturing radio emissions of laptop computers.

[Southgate](#)

[Lessons from a 10 mile hike](#)

Unfortunately, things don't always go as planned. This hike taught me a few lessons that I will carry forward on future hikes.
